

HEY SENIORS

SENIOR PORTRAIT PHOTOGRAPHY

So you've almost made it through high school...CONGRATS! This is one of the most exciting times of your life and I would love to help you remember this special time. I have been taking senior portraits since 2014 and love every bit of it!

My job is to capture your beauty just as you are (yes, guys you are beautiful too!) I enjoy showing off some of your interests and talents in the pictures—the inner dancer, athlete, musician, genius, adventurer, skater, or fashionista.

THE SENIOR EXPERIENCE

Seniors are beautiful people with special energy. I work closely with each to bring out the facets of their personalities in the form of visual art. Just as each human being is an individual, each photoshoot is also individual. This is my specialty. I want to get to know who you are and what you love, and bring that out on camera. Your portraits should be a positive reflection of who you are.

My style? It's natural and relaxed. I like to enhance what's naturally there rather than trying to create something that isn't you. I almost always opt to take photos in natural light rather than an artificially lit studio environment. Natural light illuminates skin tones with a soft radiance that makes you glow. I work directly with my Seniors to choose a location that's meaningful and photogenic.

HERE FOR YOU, ALWAYS

Communicating with my Seniors is a huge part of what I love so much about taking senior portraits. I remain friends with many of my Seniors long after I've finished our initial session together (and I enjoy continuing to hear about and document their journey—college grad pics, anyone?!).

Parents & Seniors: I'm here for you in every way possible. I encourage you to ask questions, give ideas, and play a hands-on role in the process. The following is a list of ways to get ahold of me, so you always feel cared for. Getting comfortable with me is essential to our project's success!
